PRICE POLICY

The prices in this catalog price list were current at the time of publication; however, in an inflationary period, there are apt to have been increases. As with all manufacturers and distributors, these price increases must be passed on. Therefore, the price in effect at the time an order is placed will be the price charged at the time of shipment. Every effort has been made to avoid mistakes in pricing. However, human error and product alterations dictate that any typographical, photographic, clerical or other discrepancies are subject to change.
